In what way we the

Teachers

are concerned about the Personality Development of Students ?

TEACHERS

~ Can not
Make a Difference

~ Can
Make a Difference

What is your opinion ?

There is only one purpose
in the whole of life —

EDUCATION.

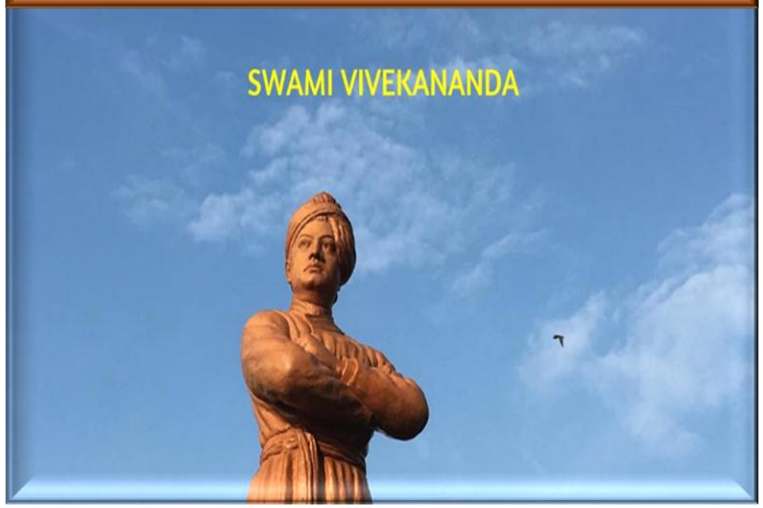
Otherwise what is the use of
men and women, land and wealth?

Educate and raise the masses,
and thus alone

a nation

is possible.

Education,
education,
education
alone!

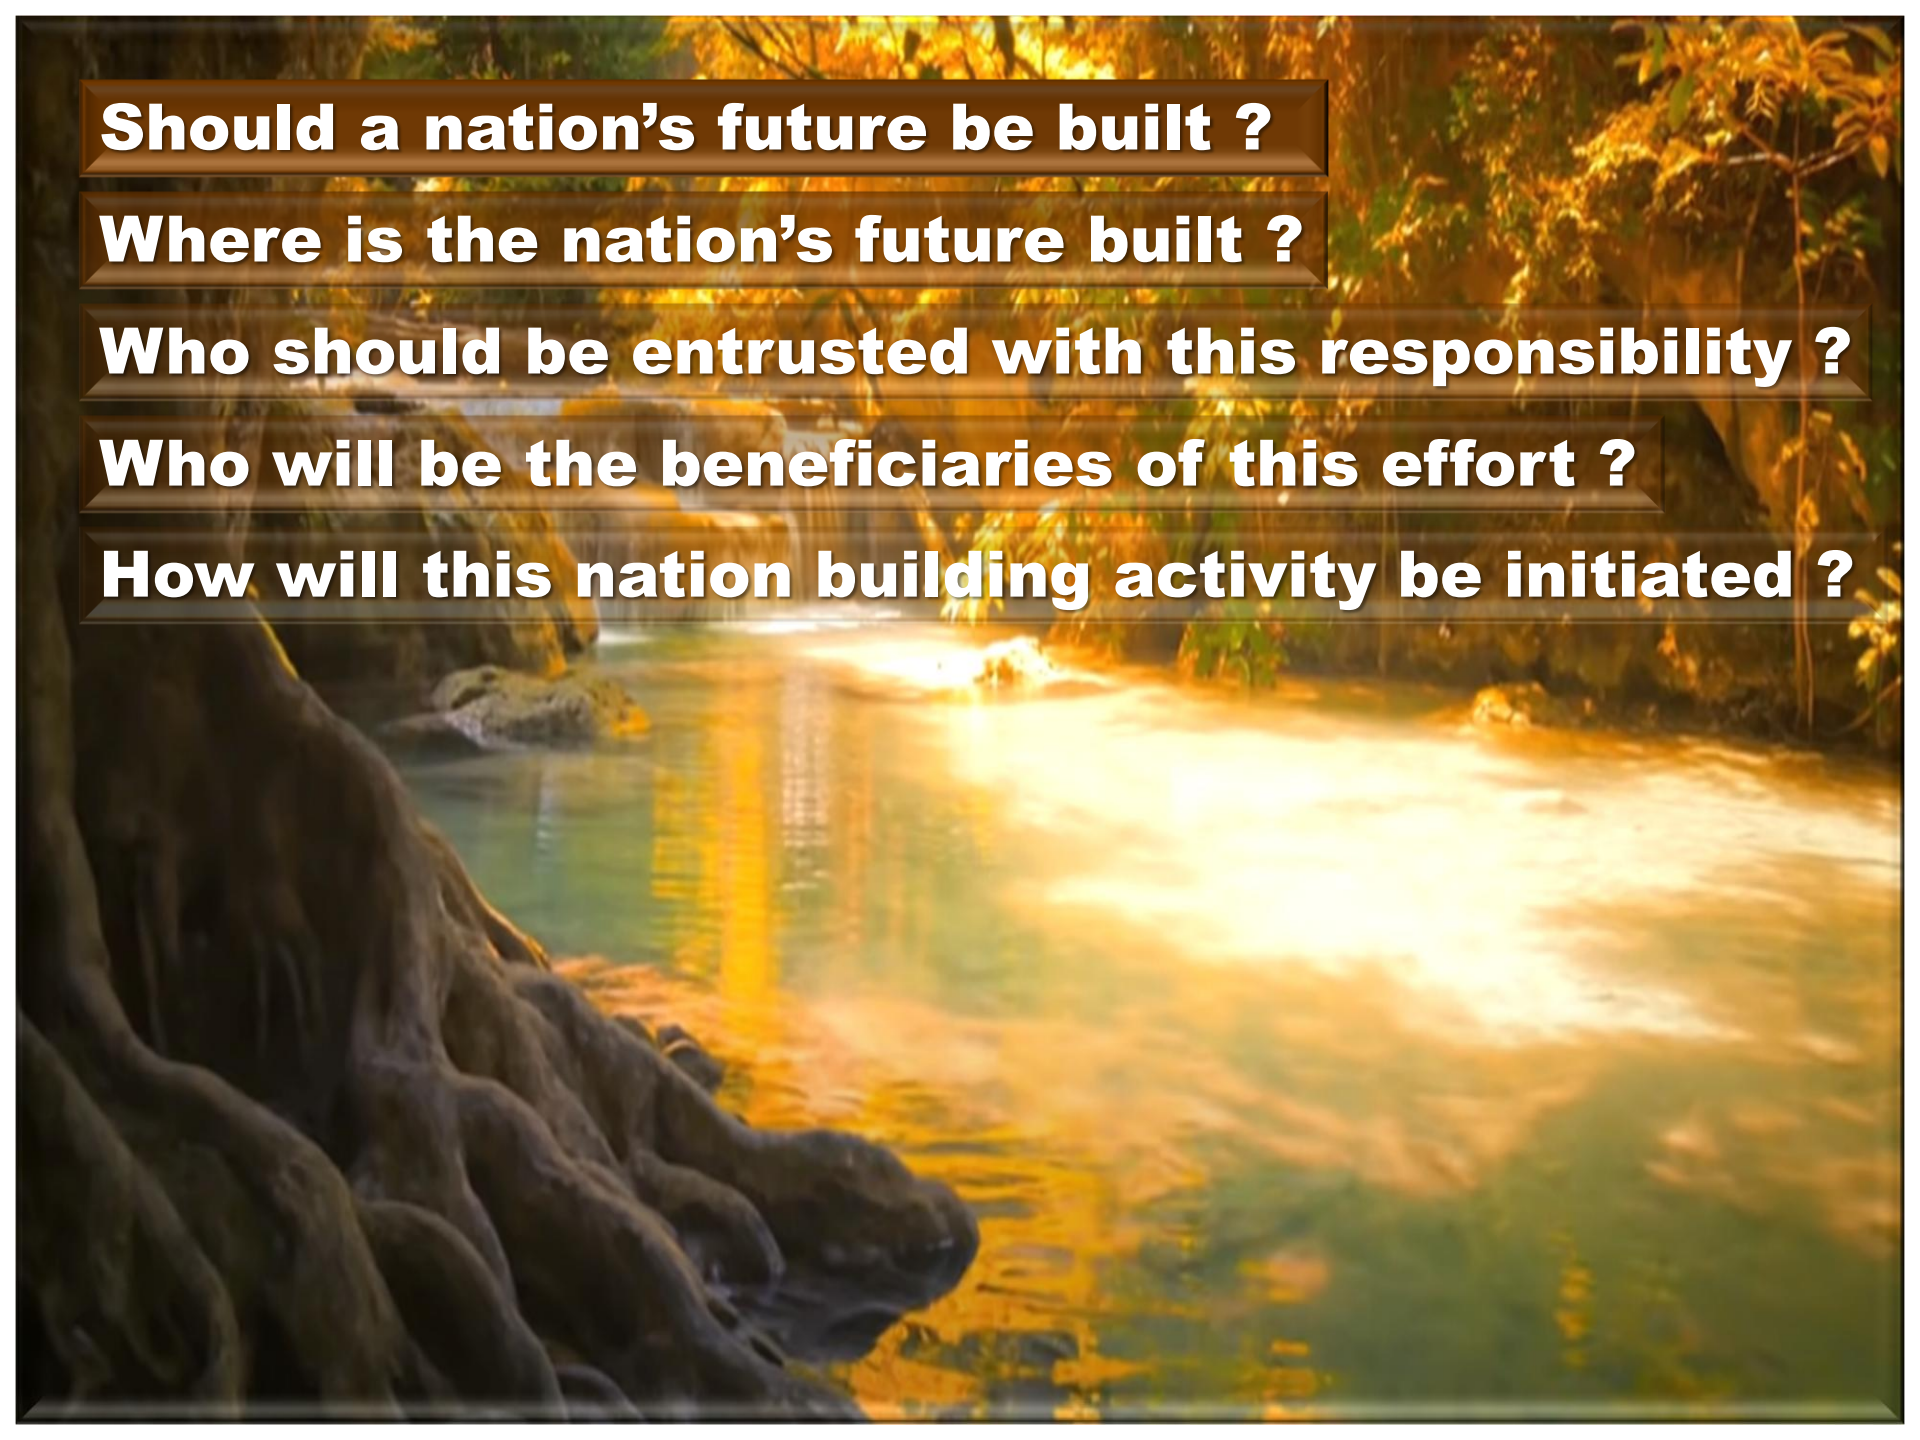


We want that education
by which
character is formed,
strength of mind is increased,
the intellect is expanded, and by
which one can

stand on
one's own feet.

The ideal of all education,
all training, should be this

man-making.



Should a nation’s future be built ?
Where is the nation’s future built ?
Who should be entrusted with this responsibility ?
Who will be the beneficiaries of this effort ?
How will this nation building activity be initiated ?

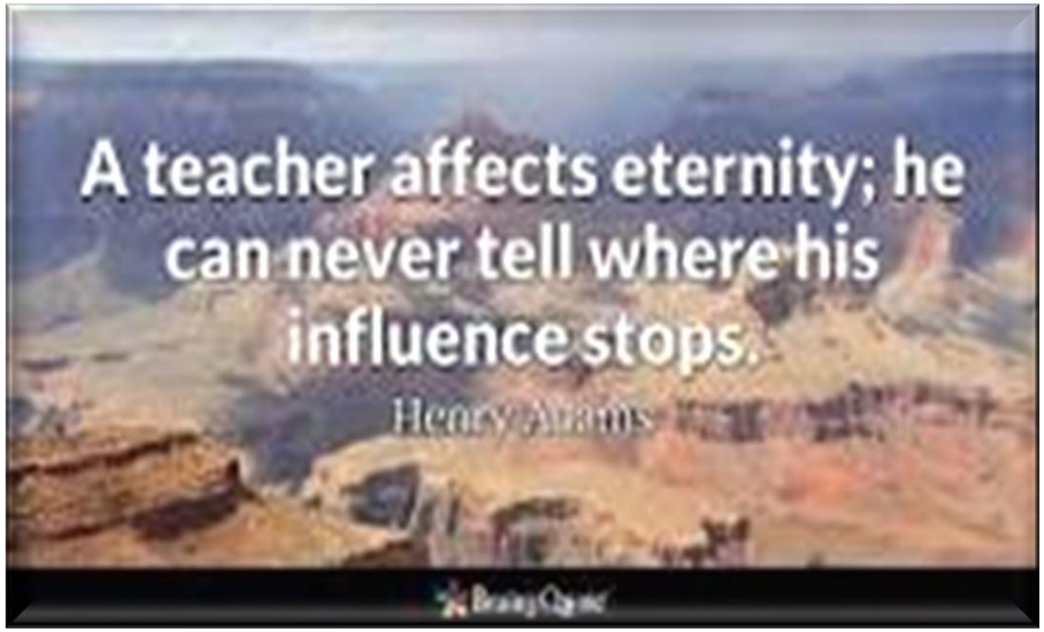
The Ripple Effect

When you throw a stone into a pond,
you'll see a splash and
hear a specific sound
generated by the touch of stone with the water.

You will notice circles rippling out from the point
where the stone hit the water.
The stone touched the water only once,
however the number of waves was more than that.
Did you also notice that
you did one simple act of throwing a stone ~
but it resulted in several waves ~
generated in all directions
travelling a much larger distance?

This is what we call the Ripple Effect.

Similarly, shaping the personality of our students,
with value-orientation – will have a Ripple Effect and
produce profound impact.



Will someone please expand ?

Life is Beautiful

Without anyone else

Without anyone's guidance

Without anyone inspiring

Without Teachers playing the Role of a

Role Model

Without anything

How can anyone develop?

When Teachers decide to play the role of a Role Model ---

Life
decidedly becomes
more Beautiful

Are you with me ?

Why this Responsibility on the Teachers ?

[why not on some other segment ? On the whole population ?]

If agreed, how to go about the TASK ?

What is the
Task of a Teacher ?
Encourage students to
sharpen, deepen and
widen
their thinking capacity
Inspire them to acquire
a better Personality

Our Students, generally **Teenagers,**
think [talk and act] **differently –**

they are more likely to take risks,
get irritated quickly,
do not prefer to listen to parents / elders
tend to procrastinate,
misread emotions,
give in to peer-pressure and
lack self-control.

With a majority of ***parents*** feeling helpless,
the hope lies in
We, the teachers, attempting to do our best.

Do you Agree !?! Please respond.

Do you agree ?

That there is

poverty

corruption

indiscipline

inefficiency

lack of seriousness

lack of inspiration

lack of commitment

lack of quality considerations

low levels of respect for human values

low levels of respect for womanhood

low levels of respect for parents

increasing materialistic attitude

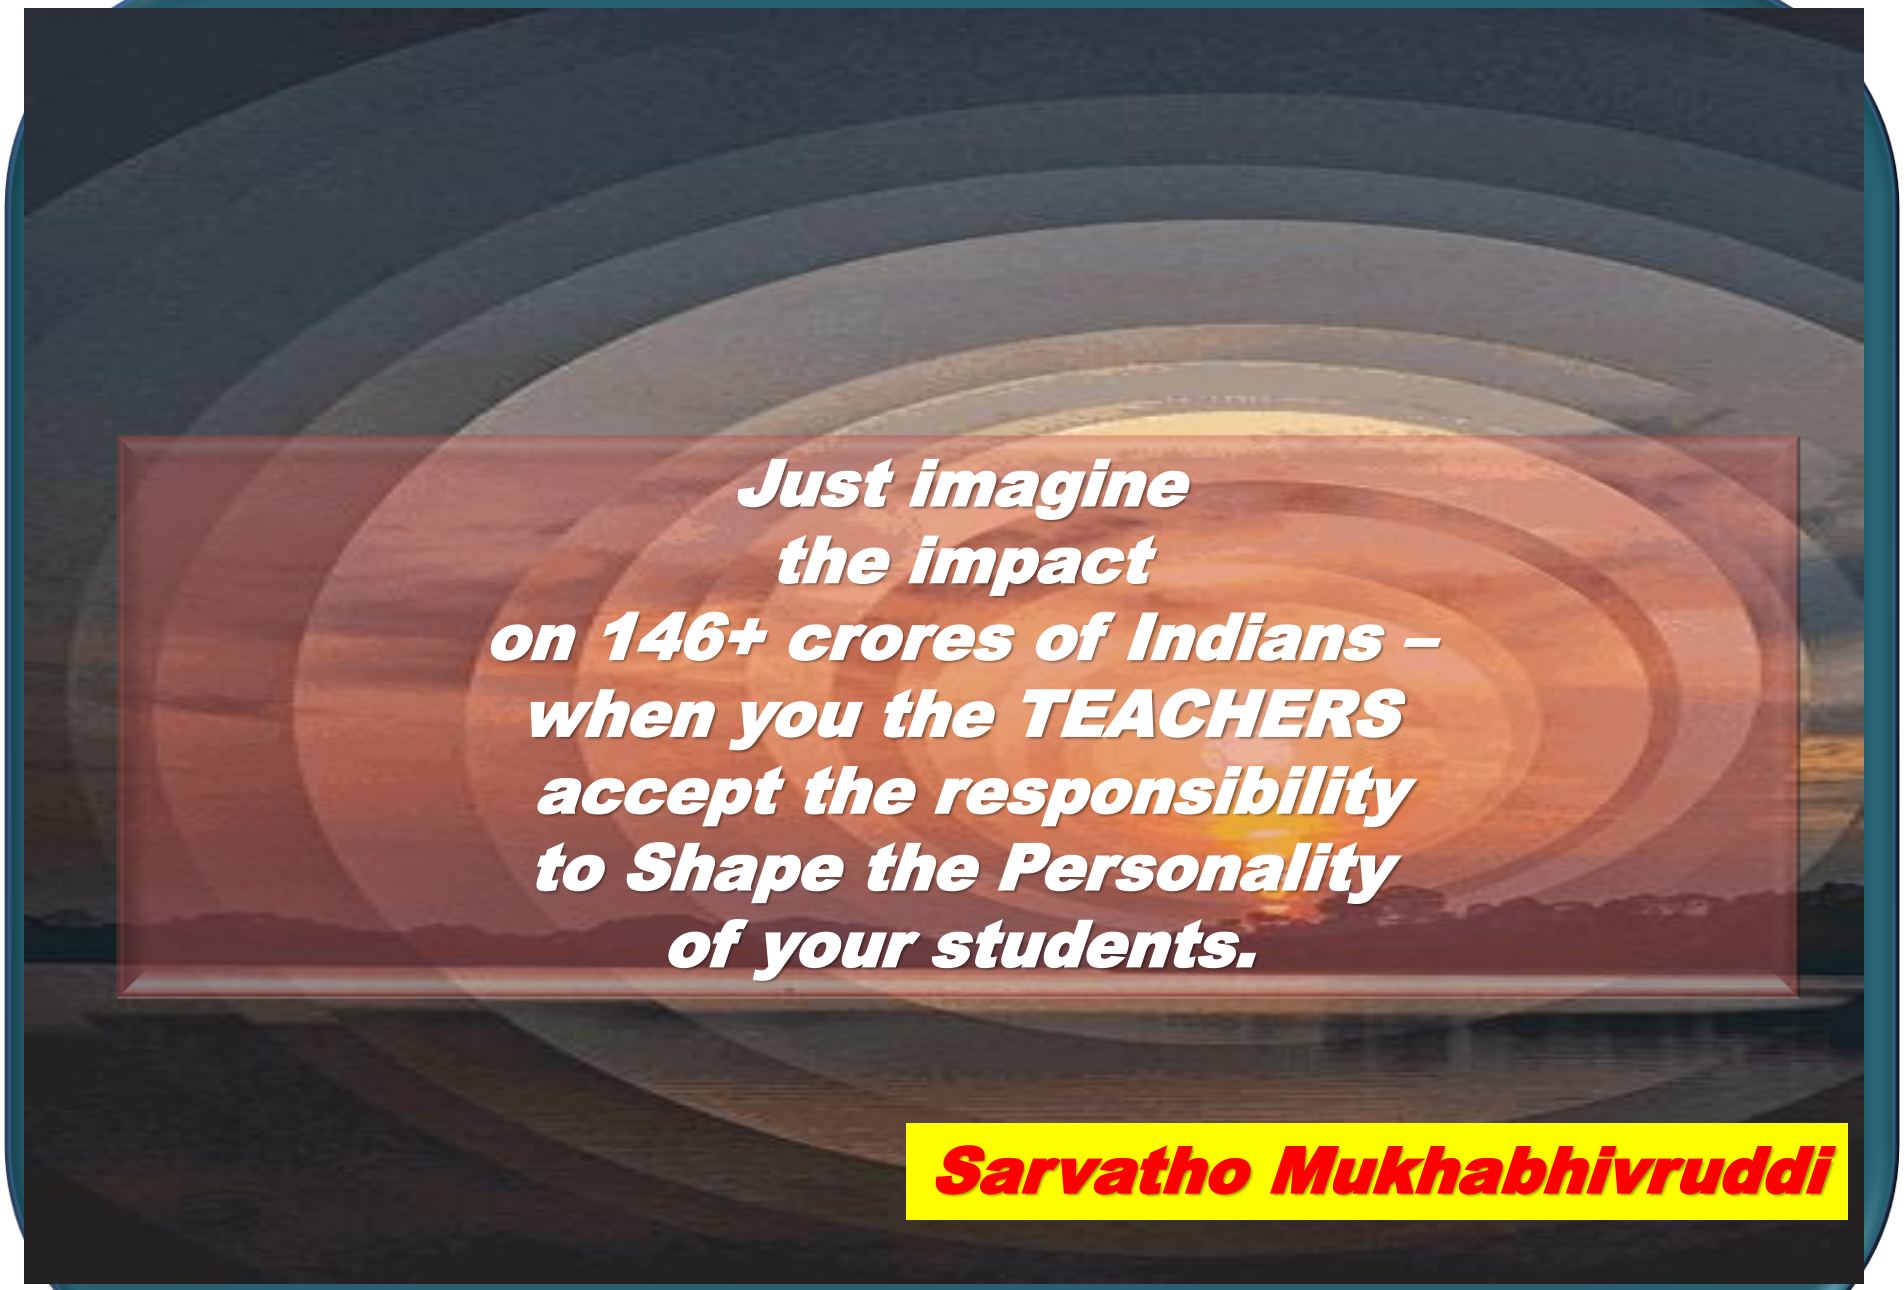
increasing selfishness

increasing crime rate

get quick rich by any means attitude

Please give me *additional* observations.

Do you LOVE your MOTHER INDIA ?
Do you LOVE to WIN ?
Do you want the Society to be BETTER ?



Just imagine
the impact
on 146+ crores of Indians –
when you the TEACHERS
accept the responsibility
to Shape the Personality
of your students.

University years are crucial
for personality development.
Teachers have significant influence on students.
Help students grow as
professionals and responsible citizens.

1. Be a Role Model

Maintain honesty, punctuality, discipline, empathy, etc.
Students observe and absorb teachers' qualities.

2. Foster Open Communication

Encourage questions, discussions, and feedback
Builds trust and communication skills.

3. Promote analytical and critical thinking

Use debates, case studies,
open-ended questions, etc.
Prepare students for real-world challenges.

4. Encourage Self-learning and Responsibility

Assign independent projects,
suggest readings, etc.
Builds initiative and self-reliance.

5. Understand Individual Differences

Adapt teaching to
diverse learning styles.
Respect diversity for balanced growth.

6. Integrate Life Skills

Teach teamwork, ethics, time management
– alongside syllabus
Life Skills complement academic success.

7. Encourage Debate and Diverse Opinions

Allow moderated debates
Builds openness and
intellectual maturity

8. Instill Discipline and Consistency

Set clear rules and
enforce consistently.
Builds professional habits

9. Support Emotional Well-being

Be approachable and empathetic.
Guide towards counseling if needed.

10. Promote Ethical Values

Discuss honesty, integrity, fairness.
Essential for shaping responsible graduates.

11. Encourage Reading Beyond Syllabus

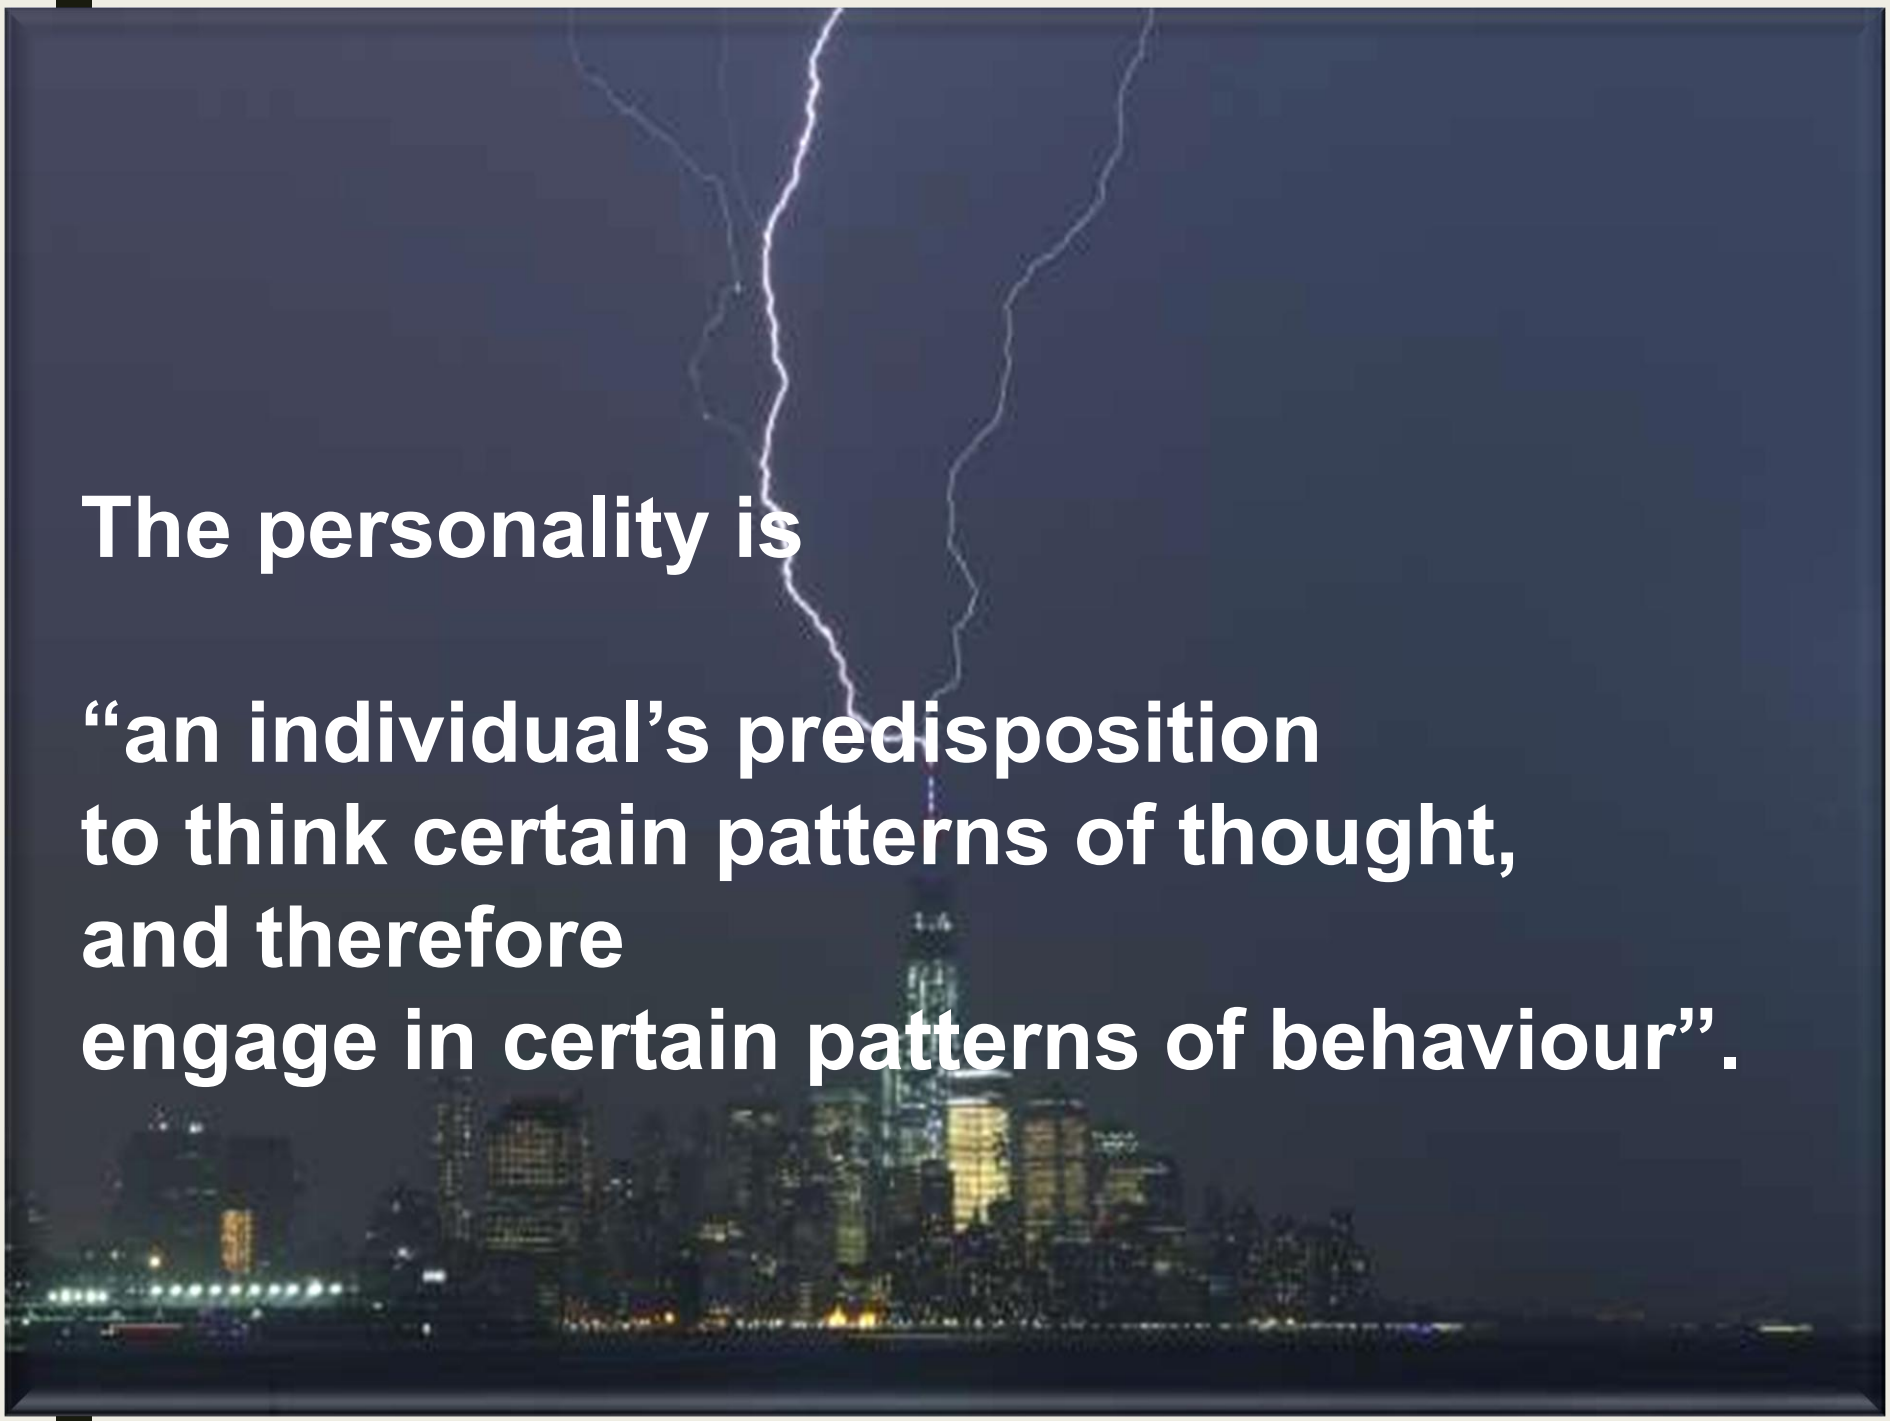
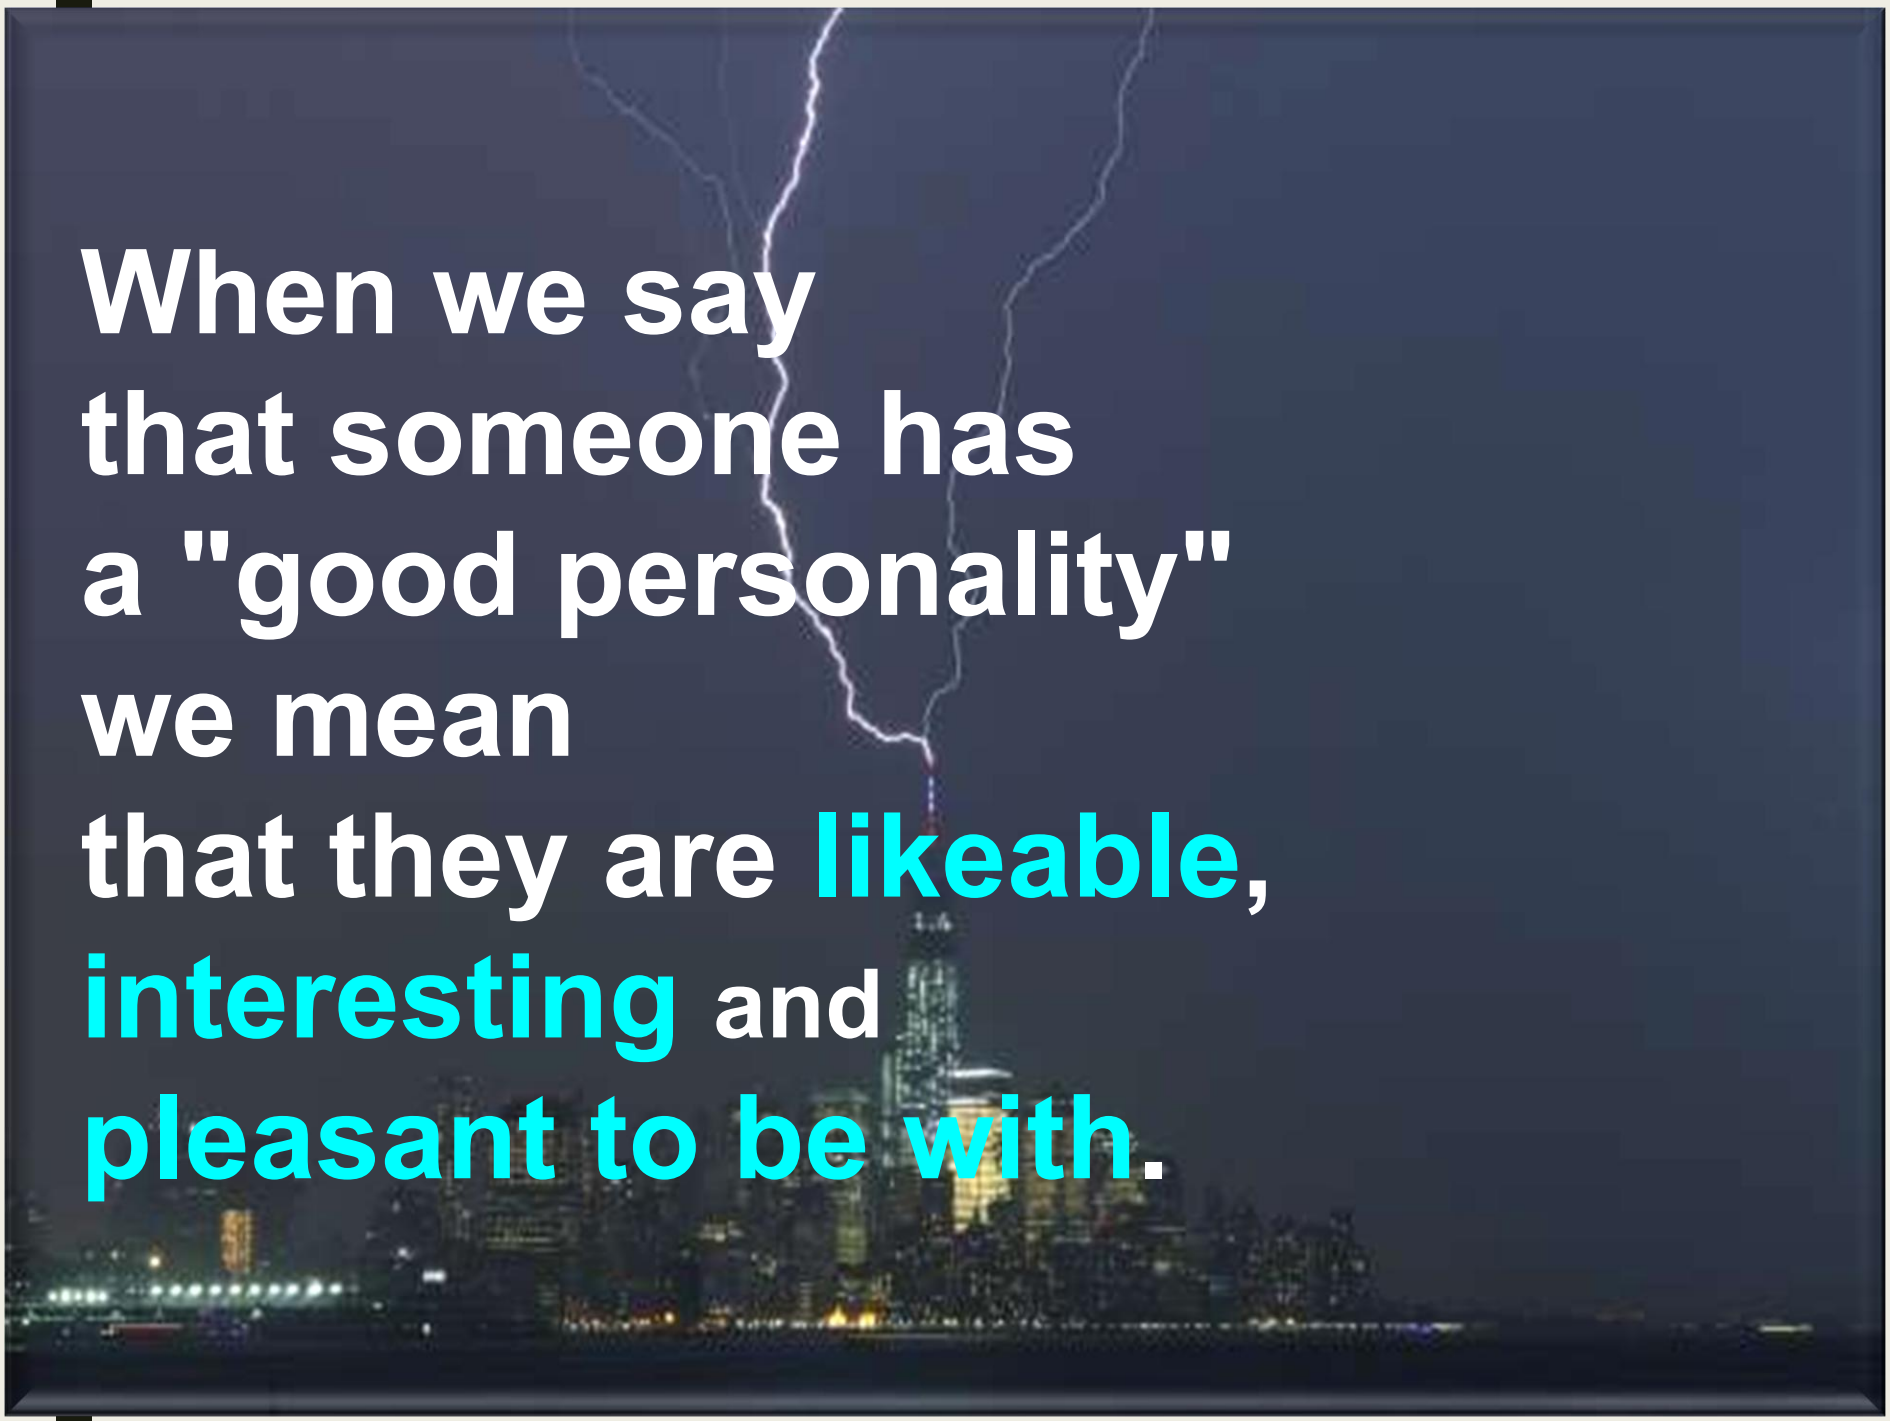
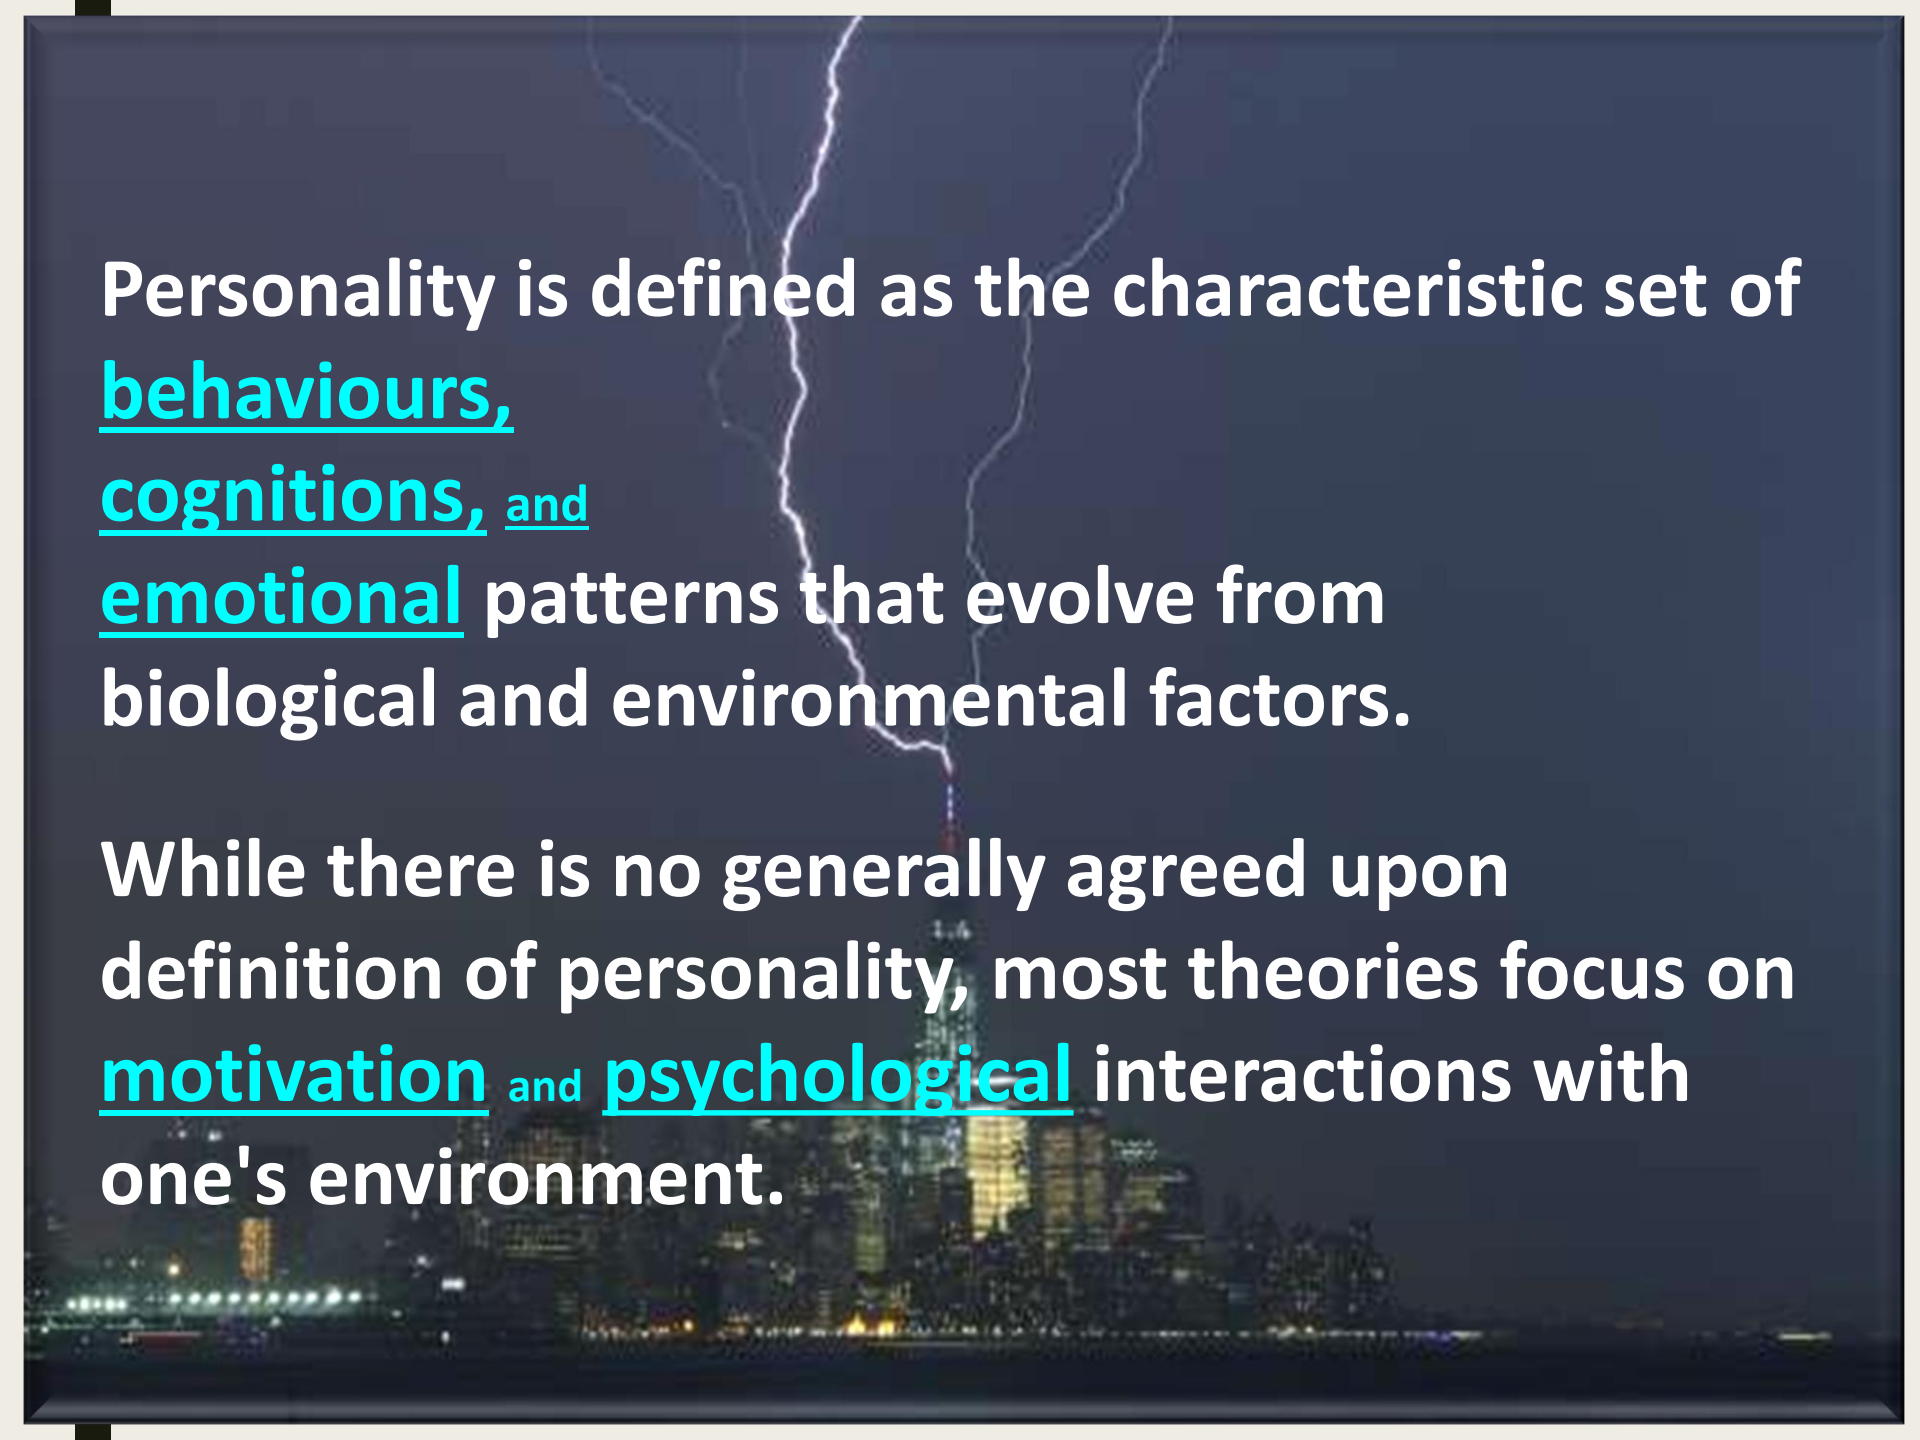
To Be
To Live Together
To Become Better



The personality is
“an individual’s predisposition
to think certain patterns of thought,
and therefore
engage in certain patterns of behaviour”.



When we say
that someone has
a "good personality"
we mean
that they are likeable,
interesting and
pleasant to be with.



Personality is defined as the characteristic set of behaviours, cognitions, and emotional patterns that evolve from biological and environmental factors.

While there is no generally agreed upon definition of personality, most theories focus on motivation and psychological interactions with one's environment.

What factors shape personality?

Culture,
religion,
education,
custom, and
family tradition, etc.

Also,
biological ~ genetic, hereditary
factors,
and social differences,
Individual experiences, etc.
